HOW DO WE DEVELOP THE FOUNDATIONS OF FAITH?

- Our children will not fully understand all the terms or concepts of faith at this age, but seeds can be planted.
- Our children need to be acquainted with the language of worship, symbols of the Christian faith, Bible stories and songs.
- Our children need to be in the presence of those who believe. Our children observe, experience and begin to imitate the actions and words of those around them.
- Our children need to experience unconditional love and learn to trust.
- Our children need to see and experience the family worshipping and learning about the importance of God in their lives.
- Our children need to build a relationship with Jesus by learning to pray.
- Our children need to see and feel the importance of the church family.
- Our children form impressions about God through parents, other adults, and their church family. Learning to trust these adults is the basis for a child as he/she learns to love and trust God.
